

AQUEOUS PARTS WASHER

- Superior Cleaning
- Easily Removes Grease and Oils
- Good Rust Protection
- Will Not Harm Paint at Proper Dilutions
- Breaks Down Sludge

■ PRODUCT INFORMATION

ASHBURN AQUEOUS PARTS WASHER is a specially formulated water-soluble alkaline cleaner specifically designed for high pressure and high temperature parts washers. This product will cut oil and sludge from machined parts and provide in process rust protection. This will prevent the parts from flash rusting.

A safe alternative to the ever growing problem of toxic chemical use. Will not harm any surface not harmed by water. May be diluted up to one ounce per gallon. Formulated to a balanced blend of detergents, chelating agents, and builders to cut through any grease, dirt, soil, grime and then suspend the soil. Leaves surfaces clean and sparkling with a fresh aroma. Excellent also as general purpose cleaner for walls and windows.

AQUEOUS PARTS WASHER

■ DIRECTIONS

AUTO PARTS WASHERS: Dilute product from 1:5 up to 1:30 depending on the severity of the application.

GENERAL CLEANING: Dilute product 1 to 50 with water. Spray, brush, or wipe solution onto surface to be cleaned. Wipe up solution with clean cloth or towel .

HEAVY DUTY CLEANING: Dilute product 1:5 to 1:10 with water depending upon the soil conditions. For heavy soil, apply solution to the surface and allow to stand for 5 minutes to loosen soil. Rinse with water.

FLOOR SCRUBBERS: Dilute 1 to 4 ounces per gallon of water depending on the soil conditions of the floor. Light soil: Run machine to remove dirt.
Heavy soil: Apply solution to floor with machine. Allow to stand for five minutes to loosen soil. Vacuum up with water.
