

WASP & HORNET SPRAY

■ PRODUCT DESCRIPTION

WASP & HORNET SPRAY can be used both indoors (attics and other places where nests are built) and outdoors on wasp and hornet nests. An EPA registered insecticidal spray containing tetramethrin and d-phenothrin, this fast acting, knockdown strength spray shoots a stream 16 feet.

■ DIRECTIONS

For control of wasps and hornets it is preferable to apply this product in the evening after all the insects have returned to the nest. Aim valve opening at the nest and depress button, continuing to spray until the nest is soaked with the spray. Repeat as necessary.
