HEAVY DUTY CUTTING LUBRICANT

PRODUCT DESCRIPTION

MIKE-O-LUBE 200 is a medium to heavy-duty fluid fortified for machining and stamping ferrous and nonferrous materials. This product provides excellent lubricity and boundary film lubrication. The product is very effective in high speed operations on thin gauge strips of steel, copper and brass. Mike-O-Lube 200 significantly increases tool and die life and greatly reduces wear. Provides temporary in-process corrosion inhibition for copper and its alloys.

Mike-O-Lube 200 does not contain nitrates, chlorine, sulfur, phenols, molybdenum compounds or graphite. It contains no solvent and is considered a low VOC lubricant. Its performance, pleasant metalworking environment and operator acceptance are beneficial over flood coolant systems.
