

# RPL #9

## FEATURES & BENEFITS

- Long-term indoor humidity protection
- Salt spray protection
- Water displacing
- Oily lubricating film
- Protects ferrous and non-ferrous metals

## RUST PREVENTATIVE

### PRODUCT DESCRIPTION

**RPL #9 RUST PREVENTATIVE** is a water displacing, non-staining rust preventive and lubricant that provides an oily protective film for 18 to 24 months indoor storage protection, moderate salt spray protection and short term outdoor protection.

**RPL #9** can be applied by spraying, brushing, dipping or submersion. The oily film suppresses fingerprints and is removed by wiping or cleaning with solvent or alkaline cleaners.
