

RPL #7

FEATURES & BENEFITS

- Long-term indoor humidity protection
- Salt spray protection
- Water displacing
- Ease of removal
- Oily lubricating film
- Protects ferrous and non-ferrous metals

RUST PREVENTATIVE

PRODUCT DESCRIPTION

RPL #7 RUST PREVENTATIVE is a water displacing, non-staining rust preventive and lubricant that provides an oily protective film for 18 to 24 months indoor storage protection, moderate salt spray protection and short term outdoor protection.

The **RPL #7** can be applied by spraying, brushing, dipping or submersion. The thin oily film suppresses fingerprints and is easily removed by wiping or cleaning with solvent or alkaline cleaners.

PROTECTION

Indoors 18 to 24 months

Outdoors short term
