

RPL #6

FEATURES & BENEFITS

- Superior rust prevention
- Excellent salt spray protection
- Water displacing
- Non-greasy film residue
- Long-term indoor protection

LONG-TERM INDOOR RUST PREVENTATIVE

PRODUCT DESCRIPTION

RPL#6 is a highly effective evaporative, water-displacing, and non-staining rust preventative that leaves behind a relatively dry film. This product was designed for long-term indoor rust protection. It will provide intermediate-term salt spray rust protection.

RPL# 6 can be applied by spraying, brushing or submersion. Individual tests should be run to check compatibility of rust preventative to paint or other type of coating. Remove by wiping with a light petroleum distillate (i.e. Mineral Spirits) or other commercial degreaser.

PROTECTION

Indoors up to 36 months
