

METAL PROTECTIVE COATING

FEATURES & BENEFITS

- Superior rust prevention
- Excellent salt spray protection
- Water displacing
- Non-greasy film residue
- Moderate outdoor protection

WHERE

- Manufacturing • Machine shops
- Industrial machinery • Factories
- Pipe yards • Automotive
- Construction areas

FOR

- Machinery • Pipe • Tools
- Metal parts • Equipment
- Steel gliders

PACKAGING

M-27111	1 Gal (4/Case)
M-27115	5 Gal Pail
M-27117	55 Gal Drum

PRODUCT DESCRIPTION

METAL PROTECTIVE COATING is a fast drying solvent based coating and rust preventative that dries to a tacky finish. May be easily removed with solvents. A ready to use product for use on pipes, metal parts, equipment and machinery. Excellent for short or long term storage and for protection of metallic surfaces.

APPLICATION

Apply product as is with either a brush or sprayer to all surfaces needing protection, paying particular attention to cracks and crevices. Allow to air dry. To increase protection and long term storage, repeat application. Product can be removed with solvent.

Indoors up to 2 years
Outdoors 12-18 months
