PRODUCT DESCRIPTION

ENVIROGREEN EXTREME is a heavy duty cleaner and degreaser designed to remove the most difficult soils. Removes oxidized and gummy deposits and accumulated soils. Cuts through any grease, dirt, soil, or grime and then suspends the soil.

Ashburn ion-Z Surfactant Technology utilizes a unique combination of cationic and nonionic surfactants that work together to quickly penetrate, detach and lift soils and greases to leave surfaces clean and residue free.

Excellent for use in automatic parts washers and pressure washing but also works well in immersion cleaning operations. Contains corrosion inhibitors to provide in-process rust protection.

APPLICATIONS

PARTS WASHING SOLVENT:

Excellent for replacing petroleum solvents in parts washing equipment. Safe, non-flammable alternative to mineral spirits and other petroleum products. Removes lubricants and cutting oils from machined parts. Provides short-term corrosion protection to prevent flash rust on parts. Use on Ferrous and Non-Ferrous Metals. Safe on most plastics.

- Machined parts
- Engines
- Transmissions
- Rear ends

HEAVY DUTY DEGREASING:

Removes all grease and oil from metal surfaces. Removes petroleum based oils as well as animal fats and vegetable based oils.
