

Features & Benefits

- Deep Cleaning Formula
- Rapidly Removes Grease and Oil
- Removes Baked-On Carbon Deposits
- Does Not Emulsify Oil Rejects Oil to the Surface
- Safe, Water-Based Formula
- Weldable and Paintable
- Improves Ultrasonic
 Cavitation Performance
- Contains Corrosion Inhibitors
- Produces Cleaner & Brighter
 Parts

Removes:

- Heavy Viscosity Oils
- Greases
- Waxes
- Baked-On Carbon Deposits
- Oxidized and Gummy Deposits

For:

- · Metal Parts and Surfaces
- Industrial Equipment
- Machined Parts
- Engine Remanufacturing
- Transmission Remanufacturing

Heavy Duty Ultrasonic

Cleaner Degreaser Concentrate

PRODUCT DESCRIPTION

ENVIROGREEN SUPERSONIC is a powerful, heavy-duty cleaner and degreaser formulated to remove the most difficult soils including baked-on carbon deposits. Excellent for use in ultrasonic and immersion cleaning of ferrous and non-ferrous parts. Formulated to cut through any grease, dirt, oil, and grime and then suspend the soil. Surfaces will be residue free and can be welded or painted. Contains corrosion inhibitors to provide in-process rust protection.

APPLICATIONS

ULTRASONIC CLEANING:

Safe, non-flammable replacement for petroleum solvents. Can be used on all ferrous and non-ferrous materials including aluminum.* Use to remove carbon deposits and degrease and clean

Remanufactured components

Engines

Transmissions
Machined parts
Industrial parts

* For aluminum, mix concentration must be at or below 10%. Material compatibility should always be confirmed.

HEAVY DUTY DEGREASING:

in

Excellent degreaser for use in removing grease and oil from metal surfaces. Removes petroleum based oils as well as animal fats and vegetable based oils.

Grease
Motor Oil
Lubricants
Carbon Deposits
Cutting Fluids
Animal Fats
Vegetable Oils
Machine Shops
Industrial Plants
Commercial Facilities

SOLUBILITY:	
SPECIFIC GRAVITY:	1.2

DIRECTIONS

ULTRASONIC AND IMMERSION CLEANING: Dilute product from 3% to 10% with water depending upon the soil conditions. Fill tank to level as recommended by the equipment manufacturer. Optimal temperature range: 130° F to 180° F

HEAVY DUTY DEGREASING: Dilute product from 3% to 10% with water depending upon the soil conditions. Spray, brush, or wipe solution onto surface to be cleaned. Wipe up solution with clean cloth or towel.
