- For Use in Fluids Up to 120° F

## PRODUCT DESCRIPTION

The **ASHBURN OIL SKIMMER** is manufactured to be an efficient, reliable, and economical belt skimmer. The Oil Skimmer comes with a quiet, permanent magnet motor, polyurethane belt, stainless steel housing, wiper and trough, and steel stabilizing bar. The drive pulley is nylon and the tail pulley is steel. Due to these quality components and design, this skimmer will provide trouble free service and reduce the overall cost of managing metalworking fluids.
