

Air Tool Oil

Features & Benefits

- Lubricates & Protects
- Prevents Rust & Corrosion
- Reduces Maintenance

PRODUCT DESCRIPTION

Air Tool Oil is a high-grade lubricant which prolongs the service life of pneumatic tools, cylinders and accessories. It also prevents rust and corrosion while removing moisture and corrosive agents.

This highly formulated lubricant prevents paraffin buildup on internal parts. It is designed to keep seals and o-rings pliable. Helps to prevent exhaust freezing in low temperatures. It is non-corrosive and non-reactive.

TYPICAL ANALYSIS

APPEARANCE: Clear Liquid
 FLASH POINT: >180° F
 VISCOSITY: 17.7 cSt @ 40° F
 SOLUBILITY IN WATER: Insoluble
 SPECIFIC GRAVITY: 0.865

PACKAGING

F-8716-16 16 OZ. (12/Case)
 F-8732-32 1 QT. (12/Case)
 F-8701-14 1 Gal (4/Case)
 F-8705-05 5 Gal Pail
